Coastal Discovery Museum

Established in 1985, the Coastal Discovery Museum offers hands-on exploration of the Lowcountry's diverse cultural heritage and complex natural history with an array of programs, presentations, exhibits and tours for all ages.

The last significant parcel of open space on Hilton Head Island, the Coastal Discovery Museum at Honey Horn opened to the public in 2007.

Comprising 68-acres of salt marsh and maritime forests, centuries-old live oaks, open fields and a dozen historic structures, Honey Horn is located at the intersection of Highway 278 and the Cross Island Expressway.

Over its 300-year history, Honey Horn has been home to Indian tribes, indigo and Sea Island cotton plantations, Gullah families who hunted and farmed the land, a hunt club established by northern businessmen and, starting in 1950, Fred Hack's private residence and farm.

In the late 1990s, the Town of Hilton Head Island purchased the site and leased it to the Coastal Discovery Museum for 95 years.

Construction of the 6,000-square-foot hunting lodge began in 1859 and, today, is known as the Discovery House, complete with permanent and temporary exhibits, a Kids Zone and gift shop.

Self-guided tours of the property via salt marsh boardwalks and an oyster shell trail include the new Karen Wertheimer Butterfly Enclosure, a Lowcountry Heritage Garden and a Camellia Garden.

Guided History/Nature Walks & Talks, live animal programs and seasonal kids camps are offered on a regular basis.

Off-site tours and programs include the Gullah Heritage Trail Tour, Forts of Port Royal, Beach Discovery, Turtle Talks & Walks and much more.

This historic property is also available to rent for romantic wedding receptions, corporate events and is home to some of the Island's largest annual festivals.

DOLPHINS, DOLPHINS, DOLPHINS, everyone wants to see them! Of course, they are wild animals, so we can't guarantee to see them on every tour we do, but we are located in one of their favorite feeding spots, so our percentage of seeing them might just be the highest on the Island! Blackbeard, Nick and little baby Stripes are a few of our favorite dolphins. For over 10 years, Kayak Hilton Head has been teaching visitors all about the dolphins, birds, oysters, salt marsh and many, many other interesting things about our Island. A great activity for beginners, families and experienced alike. Our goal is to provide a leisurely, fun and educational experience. Our guides have been doing this for years and still love it every day! We often catch blue crabs, shrimp and many interesting varieties of fish as a great ending to our tours in the warmer months. In the fall and winter when temperatures cool off, kayaking is one of the best activities on the Island. Relax and enjoy being on the water while seeing dolphins and all the other fun wildlife that lives here!

Our kayaks are easy to paddle and completely safe and comfortable. We rotate new kayaks into our fleet every year, giving you new and high-quality equipment to better enjoy your experience. Single and double kayaks are available.

DOLPHIN DISCOVERIES (843-684-1911), our guaranteed dolphin, 6-passenger BOAT TOUR also runs daily tours for those looking to enjoy a leisurely boat ride with one of our captains.

RECREATIONAL PATHWAYS GUIDE

The Town of Hilton Head Island provides over 50 miles of public pathways and nature trails for the enjoyment of pedestrians and cyclists.

At low tide, the Island's 12 miles of beaches are also ideal for biking. Public beaches are indicated on The Official Guide's Island Maps.

Our maps also show the existing public pathways. Many kiosks are located along the pathways with an Island-wide map on one side, and a localized map of the area on the other.

RULES FOR THE ROAD

Please obey all traffic signals and pathway markings.

Stop signs must be obeyed for safety. Bicycles are vehicles and must obey SC traffic laws.

Travel the pathways at speeds that allow for the safety of pedestrians and other users.

Never ride within the roadway against traffic. State law requires bicycles to drive like all other vehicles.

Please do not ride on roads where a pathway is available.

Please ride single file and keep a safe distance from other bicyclists.

WATCH OUT FOR MOTORISTS! Motorists must yield to pedestrians and bicyclists within marked crossings, but they may not see you.

Please yield to pedestrians. When resting or stopped, please move off the pathway.

Most sections of the pathways are not illuminated. If you must bike at night, please wear light-colored clothing or carry a flashlight. Bicycles must have a red rear reflector and a headlight when biking at night.

When approaching slower pathway users from behind, please sound your warning device, or call out, "Passing on your left." Always pass on the left.

Bicyclists should always wear a helmet, especially children 12 and under.

Make eye contact and use hand signals. Assume other bicyclists and motorists don't see you. Hand signals tell motorists and other path users what you intend to do and will ensure everyone's safe enjoyment of the pathways.

Be courteous, alert and predictable.

Fishing By Season: Winter

By Capt. Rick Percy, Reel Chance Fishing Charters

Photo provided by Reel Chance Fishing Charters

We have the opportunity to catch these fish all winter...

Redfish on the flats is the name of the game this season.

We have the opportunity to catch these fish all winter and into the spring, as our estuary system is loaded with large mud flats that hold one to two feet of water at dead low tide. Perfect habitat for Redfish.

As the water cools down in late fall, Redfish tend to school. This is simply a survival technique.

Redfish are the number one food source for our resident Bottlenose Dolphin. The dolphin push the edges of these flats in small groups and try to corral a school of fish. It is something to see them feeding on an eight-pound Redfish. They also help us locate the fish with their feeding activity.

Given calm winds and clear water, these Redfish schools are not hard to find, by either seeing them “push a wake” as they move down the flat or simply seeing the dark color of the mass of fish.

Once we find them, we normally try to get into casting range as quietly as possible and stake the boat down. Stealth is important in catching Redfish and the more noise one makes in the boat, the fewer opportunities you will have to pull one in.

Baits vary at this time of year. Cut mullet, shrimp, mud minnows,

spoons and soft plastics all work, but my choice is free lining a Gulp – hands down the best bet for a hookup I have seen.

For fly fisherman, this is the ultimate challenge. Sight casting to Redfish is big-time business all along the Southeast and Gulf coasts and the Lowcountry of South Carolina is as good as you can find. We have numerous days of putting 10 to 20 Redfish in the five- to 10-pound class in the boat on a four-hour trip.

Most of our trips in the winter are four-hour trips, built around the last two hours of the outgoing tide and the first two hours of the incoming. This gives us maximum exposure to that window of opportunity in finding the fish.

What a great way to spend a January afternoon. Beats shoveling snow all to pieces!

Owner and operator of Reel Chance Fishing Charters in Beaufort, Capt. Rick Percy began his fishing career at age four and has been prowling the Lowcountry’s numerous creeks, rivers and sounds for over 20 years. Specializing in light tackle fishing, hook up with this experienced captain for a day of inshore and nearshore fishing aboard the Reel Chance II. (803) 535-6166 or reelchancecharters.com.

There's something for everyone no matter what age or experience. Try kayak fishing for novice or serious anglers looking to get up close and personal with the prey.

KAYAKING – Go With The Flow on Live Oac's signature "Tide Ride"[™] – perhaps Hilton Head's easiest kayaking experience. Using our area's extreme currents and tidal changes, Live Oac schedules these premium trips at the ideal times, so you can Ride The Tide.

In addition, Live Oac also offers "conventional" kayak tours that launch and land at the same location, planned around the currents and conditions, plus special off-Island destinations, such as the May River along historic Bluffton and the beautiful black waters of the New River.

ISLAND BEACHES

PUBLIC BEACH ACCESS:

All of the beach is public, from the ocean to the high water mark. Access to the beach, however, is often private. The Town of Hilton Head Island provides nine beach accesses: **Alder Lane Beach Access**, off South Forest Beach Drive; **Coligny Beach Park**, off Coligny Circle; **Driessen Beach Park**, at the end of Bradley Beach Road; **Chaplin Community Park**, off Wm. Hilton Pkwy.; **Fish Haul Park & Mitchelville Beach Park**, at the end of Beach City Road; **Burkes Beach Access**, at the end of Burkes Beach Road; **Folly Field Beach Park** and **Islanders Beach Park**, both off Folly Field Road.

PARKING & FACILITIES:

There are 23 metered spaces at Alder Lane; 54 metered spaces at Folly Field and 13 metered spaces at Burkes Beach Road. The parking fee is a QUARTER for each 15 minutes. Additionally, there are 207 spaces at Driessen Beach Park for long-term parking. The fee is a QUARTER for each 30 minutes during the week.

Parking spaces at Islanders Beach Park are ALWAYS reserved for annual beach passes. Parking at Driessen Beach Park for annual beach passes is reserved from 8 a.m. to 3 p.m. Parking is FREE at Fish Haul Park, Mitchelville Beach Park

and Coligny Beach Park. Handicap parking is available at no fee at all beach parks.

Restrooms, changing areas, sand showers and vending machines are available at the beach parks.

DESIGNATED SWIMMING AREAS:

Official swimming areas have been designated for the Alder Lane, Coligny, Driessen, Folly Field and Islanders Beach Parks. The boundaries will be clearly marked on the beach and in the water.

During the beach season, lifeguards are stationed in each of the designated swimming areas for assistance and beach information. Please ask a lifeguard before entering the water if the yellow caution flag is flying.

BEACH MARKER SIGNS:

Hilton Head's beaches are marked with signs to let emergency responders know where anyone who needs help is on the beach. They are also useful to help you find your place if you are lost on the beach. It is helpful for everyone in your group to know the marker where you are staying, so that you can return on your own or tell beach patrol personnel, so they can get you back to the right place. The markers sit near the dune line.

BEACH PROHIBITIONS: The following are prohibited on all beaches:

- Possession or consumption of alcohol
- Glass (bottles, containers, etc.)
- Littering
- Indecent exposure or nudity
- Disorderly conduct
- Disturbing the peace

Dining & Entertainment

Serving up delicious fare and exciting entertainment to suit every taste, Hilton Head Island is home to hundreds of restaurants, lounges, sports bars and live music venues. From sunup until well past sundown, enjoy the freshest seafood and fusion fare overlooking the water, order a pizza and ice-cold drink and catch the game on a big-screen TV, dance the night away or head out and spend an evening listening to the best local, regional and national acts.

THE CRAZY CRAB

The Crazy Crab boasts two picturesque waterfront locations on either end of Hilton Head Island.

This longtime local favorite opened in 1984 on Highway 278 overlooking Jarvis Creek. Two years later, the second restaurant began serving hungry patrons in Harbour Town.

Destroyed by fire in 1998, the North-end Crazy Crab was rebuilt to twice its original size and now accommodates nearly 250 people inside the spacious, nautical-themed restaurant, with another 80 seats outside on the deck.

Open daily for lunch and dinner, both locations offer identical menus featuring made-to-order Lowcountry specialties with an Early Bird Special available from 4-6 p.m. daily through February 24.

Share a complimentary basket of freshly-made hushpuppies while enjoying a bowl of She Crab Soup, shrimp cocktail, jumbo lump crab cake, oysters on the half shell or Caesar salad.

During lunch, the variety of salads, sandwiches, burgers, seafood platters and daily specials are sure to please every palate. In the evening, the menu expands to include an even larger selection of appetizers and entrees, such as stuffed flounder, stuffed mushrooms and Alaskan king crab legs.

From fresh fish and tender sea scallops to succulent shrimp and plump oysters, patrons may choose their seafood broiled, fried or steamed with a garden salad, corn-on-the-cob, coleslaw, onion rings,

rice, baked potato or French fries on the side.

Those who can't make up their minds may opt for the signature Steamed Seafood Pot or a combination platter. Several steak and chicken dishes are available, as well.

Steps away from the Harbour Town Playground in Sea Pines, with an enclosed outdoor play area and huge indoor saltwater aquarium at Jarvis Creek, kids are always welcome at these casual, family-friendly establishments.

The special "Minnow's Menu" includes grilled cheese, fried shrimp, chicken fingers and pizza with a selection of locally-made ice cream, homemade Key Lime pie and chocolate mud pie for dessert.

According to co-owner Peter Kenneweg, the secret of the restaurants' success is three-fold.

"It's more than one thing," he explains. "It's got to be good food, good service and the price has to be right."

The Crazy Crab restaurants have been local favorites for more than 25 years. A children's menu, take-out and outdoor seating (at Jarvis Creek) are available. Reservations are not required, large groups welcome.

In addition to food, catch the game on big screen TVs, enjoy a full lineup

of live entertainment, let the little ones burn off some energy in the Kid's Zone, bid on items at the silent auction or find the perfect gift at the Holiday Craft Show. New this year, a concert featuring longtime local favorite, Bobby Ryder, is scheduled for Friday from 5-8 p.m.
